Research

MIST II 3/07-12/07

PFO and Migraine Study

A study in collaboration with Rush University to determine the relationship of Patent Foramen Ovale to Migraine headaches.

Previously participated in the following two studies:

Merck Menstrual Migraine Study 2005. Patients were recruited patients with menstrually-associated migraines. Measured response to various abortive medications taken during menses.

Merck Migraine Diary, Differentiation and Decision Study (MD3).

Our clinic participated in the Axert Intensity Migraine Study; 2004. This study was conducted to understand the response to medications based on timing of treatment.

Merck Pharmaceutical – Maxalt Study

Clinical Investigator – University of Illinois 2001-2002

Participated in research studying the effects of Rizatriptan on migraines in young adults.

POST Study, Bristol-Meyers

Clinical Investigator – Christ Hospital 2000-2001

Participated in a study involving the early administration of neuroprotective agent to qualified candidates from a cortical ischemic event.

Previous Employment

Lectures and Speaking Engagements

Dr. Gokani has been actively involved in teaching fellow physicians, residents, nurses, physical therapists, nurse practitioners, pharmaceutical representatives, along with the public, about various issues regarding the pathophysiology of migraines, mood disorders, sleep issues, digestive imbalances and hormonal dysfunction . She has given at least 500 lectures to fellow neurologists, internists, family physicians, ENTs, pediatricians, anesthesiologists, pain specialists and obstetrician-gynecologists. She has been chosen to train pharmaceutical sales teams on the medical model of migraine, how to appropriately approach physicians and when their products are best suited for the clinical situations that physicians are facing.

She is a blogger for Huffington Post and she has been quoted in Chicago Parent, Make it Better, Bottom Line Health and CNS News. Recently she was featured on the Dr. Oz show, along with on local TV and radio on topics of Ayurveda and Health. She will be featured in an upcoming documentary on Ayurveda.

Dr. Gokani has been invited to be a guest lecturer at the following institutions/society meetings:

University of Chicago
